

Instructions

Please take all measurements in millimetres. If more than one template is needed, please label with 1, 2, 3 etc within the green circle next to the word PANEL. If marking the templates, please do so in a 'left to right' order, as if you were viewing the completed product. We will cut all panels to the exact measurements that you input into this template, so please measure twice to ensure they are correct. Failure to do so may result in bad fitment of panels, which Dualsplash cannot be held responsible for.

For further guidance on measuring, please refer to the help guides on our website:
